MEMORANDUM FOR: Executive Secretary

DD/A REGISTRY

FILE: Equip + Supplies

STAT

FROM: [redacted]
Chief, Supply Division, OL

SUBJECT: Safe for the Office of the Vice President

1. In response to your request for information, it is our understanding that Mr. Bush had a 1-drawer combination lock field safe in his house at the time he was the Director of Central Intelligence. A description of the safe is attached (Attachment A). This safe is not an approved container for classified documents. It is appropriate for field use because it is portable, weighing only 110 pounds, and is equipped with handles both front and rear. It is believed that Mr. Bush had this safe to hold equipment related to his communications gear and that, in addition, he probably had an approved Class 6 2-drawer safe normally used for classified documents. A description of the Class 6 safe is contained in Attachment B. For your information, the field safe is described as follows:

Name: Field Safe 1 Drawer

Net Weight: 110 pounds

Price: \$470

Vendor: Mosler Safe Company, Hamilton, Ohio

2. Rather than providing a 1-drawer safe for Mr. Bush, it is suggested that he obtain a 2-drawer approved Class 6 container. This safe not only provides space that is more accessible but double the volume in the field type safe. The Class 6 safe is available in various colors to match office decor. The following information applies to this particular safe:

Name: Mosler Class 6/2 Drawer Safe

Net Weight: 325 pounds

Cost: \$670

Vendor: Mosler Safe Company, Hamilton, Ohio (available from General Services Administration)

SUBJECT: Safe for the Office of the Vice President

3. While Mr. Bush can probably obtain the safe quickly through his Secret Service officers, we would be glad to help if appropriate.

Re: The "S.I.D." Computer Program for Overseas Police Communications
and the utilization of our subsidiary, 57 year old REPUBLIC PICTURES
for Overseas Productions.

Dear Mr. Casey:

Enclosed you will find brochures illustrating, briefly, Law Enforcement Products for your review and consideration. You may find the "S.I.D." Computer Program of special interest since it deals with Human Individuality and Personality Traits, including Predisposed Health Conditions and Deficiency Symptoms.

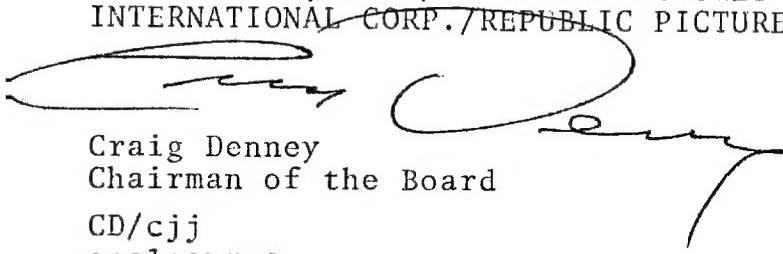

What makes the "S.I.D." Program so unique is that it is based solely on the Birth Data of the individual in question. This is not an ordinary Astrological readout, but a comprehensive, in-depth Sidereal Report describing the most essential information, relating to a Human Being's True Identification. Naturally, our program will be available to you at no cost, whatsoever, for extensive test purposes. Another important factor which makes "S.I.D." exclusive is that the name of the individual in question need not be revealed, as it is only necessary to identify the Birth Data and to indicate Male or Female.

Enclosed please find an 11 x 14 photo for your personal enjoyment, illustrating the recent accomplishment of REPUBLIC's underwater film crew while filming our ELEVEN MILLION DOLLAR, CinemaScope Production entitled, "OCEANIC OPERA, A SEA ODYSSEY".

I would welcome the opportunity to personally discuss our potential services to the Agency at your earliest possible convenience.

Very truly yours,

AIR AMERICA, INC./REPUBLIC PICTURES INDUSTRIES, INC./REPUBLIC PICTURES INTERNATIONAL CORP./REPUBLIC PICTURES CORP./REPUBLIC STUDIOS, INC.
